

Please add claims 56-58

56. (New)-- A method of presoaking cloth for cleaning a cylinder in a printing press, the method comprising:

contacting a cleaning fabric supply roll with a low volatility, compound solvent which does not evaporate readily at ambient temperature and pressure and soaking and saturating said cleaning fabric supply roll with said solvent. --

D<sup>2</sup>  
57. (New) --The method of claim 56, further including removing excess solvent from the cleaning fabric supply roll wherein the solvent removal occurs inside a container holding the solvent.--

58. (New)--The method of claim 56, further including removing excess solvent from the cleaning fabric supply roll, wherein the solvent removal occurs outside a container holding the solvent.--

---

**REMARKS**

Claim 51 has been amended and claims 56-58 have been added. No new matter has been added. Support for this amendment can be found on page 19, lines 4-24; page 20, lines 16-25; page 21, lines 10-18; and page 24, lines 18-25. Reconsideration of the application in view of the above amendments is respectfully requested.

Claim 51 has been amended to remove typographical errors and remove the term heat-sealed plastic. Claims 56-58 have been added.
